

Logan Barrow

(864) 934-8013 • ljbinsc@gmail.com • loganbarrow.netlify.app • github.com/Lesh-ee

TECHNICAL SKILLS

Engineering & Field: Total Station, GPS/GNSS, AutoCAD, Layout & Surveying, QC Inspection

Software & Platforms: AutoCAD, AWS, Git, VSCode, IntelliJ, Adobe Creative Suite

Programming: Python, C, C++, Java, JavaScript (ES6+), SQL, PHP

Web & Frameworks: HTML5, CSS3, React, Node.js

Methodologies: Agile, Waterfall, UML, Unit/Functional Testing

WORK EXPERIENCE

Field Layout Engineer — Lithko Contracting, SC 2026 – Present

- Execute precision layout and surveying operations using total station and GPS/GNSS equipment to establish control points, column lines, and structural elements on large-scale commercial concrete projects
- Perform quality control inspections to verify dimensional accuracy and compliance with engineering drawings, specifications, and tolerances
- Coordinate with project managers, foremen, and subcontractors to sequence layout activities and resolve field conflicts before they impact schedule
- Interpret and apply civil/structural blueprints, shop drawings, and CAD files to translate design intent into field-ready control data
- Maintain detailed field records, as-built documentation, and daily QC logs to support project closeout and owner reporting

Customer Service Representative — QuikTrip, Pendleton, SC 2022 – 2026

- Managed high-volume operations including POS transactions, inventory tracking, and cash handling in a fast-paced environment
- Consistently maintained accuracy and customer satisfaction standards across all shifts

Fuel Station Attendant — Walmart, Clemson, SC 2021 – 2022

- Delivered courteous customer service and maintained strict compliance with safety and operational standards

PROJECTS & PORTFOLIO

Personal Developer Portfolio — loganbarrow.netlify.app,

- Designed and deployed a personal portfolio using HTML, CSS, JavaScript, and React; hosted via Netlify with continuous deployment from GitHub
- Demonstrates responsive design, clean component architecture, and attention to user experience

VEX Robotics — Autonomous Systems — , 2014 – 2018

- Programmed sensor-driven autonomous robot behavior for competitive VEX Robotics tournaments
- Developed real-time control logic and tuned feedback systems under competition conditions

EDUCATION

B.S. Computer Science — Clemson University, Clemson, SC 2018 – 2022

- Coursework: Data Structures, Algorithms, Systems Programming, Software Engineering, Web Development, Databases
- Palmetto Fellows Scholarship recipient — merit-based academic award from the State of South Carolina

ACHIEVEMENTS & LEADERSHIP

- Eagle Scout — Troop 235, Ram Patrol Leader (2017); demonstrated leadership, project management, and community commitment
- Palmetto Fellows Scholarship — merit-based academic scholarship awarded by the State of South Carolina (2018)
